

G.S. Ginkgosome®

Day Time Rejuvenating and Hydrating Serum

Grape Stem Cells | Palmitoyl Pentapeptide-3 | Ginkgo Biloba

DESCRIPTION: A highly concentrated rejuvenating and hydrating day time serum. Fights off environmental damage with Grape Stem Cells and powerful Peptides that are incorporated in our advanced Alphasomes® skin care delivery system. A 24 hour time release moisture system helps to retain skin's moisture. A small amount applied daily provides immediate, visible improvement to skin tone, texture, firmness and vitality.

FEATURES AND BENEFITS:

Protect Against and Reverse Aging with Grape Stem Cells | Vitis Vinifera (Grape) Fruit Cell Extract protects skin against the harmful effects of skin stress caused by UV radiation, responsible for 80% of skin aging, with epigenetic factors and metabolites. It delays the senescence, or the biological aging of essential cells, as well as fights photo aging. The cell extract has an extremely high anthocyanin content which is high in powerful antioxidants and has free radical scavenging capabilities.

Fight Aging with Palmitoyl Pentapeptide-3 | An advanced peptide made in-house. Supports cell metabolism and stimulates cell proliferation and tissue regeneration for bright, healthy looking skin. In vitro clinical studies showed it stimulated wrinkle fighting collagen by 117% and firming collagen by 357%, increased moisture holding capacity by 267%, reduced the surface area of wrinkles by 68% and reduced skin roughness by 16%.

Rejuvenate | L-Alanine, Octanoic Acid, Aspartic Acid, and Adenosine Triphosphate are natural anti-oxidants and free radical protectors which combat the signs of aging and help rejuvenate the skin.

Improve Skin Tone | Vitis Vinifera Fruit Cell Culture Extract, Palmitoyl Pentapeptide-3, Ginkgo Biloba, and Olive Extract provide a visible improvement to skin tone and help reverse the signs of aging.

Moisturize | Superoxide Dismutase and Saccharomyces cerevisiae (Yeast) Cell Extract help release moisture to the skin, enhancing firmness and smoothness. Sodium Hyaluronate, Niacin, Palmitoyl Tripeptide-5, Oligopeptide-20 and Royal Jelly enhance the moisture retaining capacity of the skin.

Advanced Delivery System | Alphasomal® Complex is an advanced Phospholipid based delivery system that encapsulates active ingredients and enables them to reach the targeted area for superior product performance.

USAGE: Apply after daily cleansing and toning. Pat lightly and follow with moisturizer and sun protection.

INGREDIENTS: Water (Aqua), Glycerine, Phospholipids, Palmitoyl Pentapeptide-3, Ginkgo Biloba, Olea Europaea (Olive) Extract, Tocopherol, Sodium Hyaluronate, Glycine, Oligopeptide, Aloe Barbadensis Leaf Extract, L-Arginine, Sodium PCA, L-Proline, Vitis Vinifera Fruit Cell Culture Extract, Acetyl Tetrapeptide, Saccharomyces cerevisiae (Yeast) Cell Extract, Royal Jelly, L-Alanine, Niacin, Serine, Dex Panthenol, Octanoic Acid, Aspartic Acid, Adenosine Triphosphate, Phenoxyethanol, Polysorbate 20, Potassium Sorbate, Fragrance Oil, Ethylhexylglycerin

SIZES: 15 ml / 0.5 fl. oz., Ref. # 835
