

ESSENTIALS

## FLAWLESS SKIN FLUID® TINTED MOISTURIZER Mineral Sunscreen Broad Spectrum SPF 50

- Water Resistant (80 minutes)
- Mineral based tinted sunscreen with Broad Spectrum protection, hydrating and skin enhancing benefits
- Key ingredients: Zinc Oxide, Mica, Centella Asiatica, Green Tea, Coconut, Orange Peel and Sunflower Seed

### DESCRIPTION

A non greasy mineral based tinted sunscreen that helps reduce skin irritation due to sun exposure. Hydrates the skin, leaving it dewy and glowing. A great and safe alternative to your daily skin care routine.

### FEATURES AND BENEFITS

- **Non-greasy sun protection:** Micronized Zinc Oxide creates a shield against photo damage and allows for natural, vital looking skin. A great and safe tinted alternative for the face with a dry touch feel. Helps prevent minor skin irritation due to sun exposure.
- **Sustainable through modern technology:** Historically, micronized zinc was not always available for skin care and is only possible because of modern technology, making this sunscreen an environmentally responsible option, with sustainable ingredients and natural SPF boosters that are biodegradable and harvested from renewable sources.
- **Hides flaws:** Mica, Camellia sinensis and Olea europaea are blended with Butyrospermum parkii, for a perfect and flawless look.
- **Hydrates:** Plant-based ingredients, such as Extracts of Rosemary, Centella asiatica (Gotu Kola), Green Tea, Olive and Horsetail, work in synergy for moisturized, hydrated skin.
- **Healthy, natural look:** Your skin illuminates and appears more awake, with a natural, healthy-looking glow.
- **Scent:** The pleasant, natural smell is derived from Coconut, Orange and Sunflower Seed.

### USAGE

After cleanser, toner, and serum, apply Flawless Skin Fluid® Tinted Moisturizer Mineral Sunscreen SPF 50 to face and neck for an even complexion. Works great as a makeup base.

### INGREDIENTS

Active Ingredient: Zinc Oxide 21%
